

ANOTHER FREE PRESENTATION OF THE WATERSHED EDUCATION CENTER

For ospreys, it's all about fishing.

Join us as wildlife conservationist Jessica Nielsen presents a fun and informative program on the history and life traits of osprey populations in New York State. Learn what makes these birds of prey special, where they can be found, how they hunt, and the wildlife management efforts that strive to protect them. To attend this presentation, in person or on online, sign up by scanning the QR code below or by visiting this website: conesuslake.org.

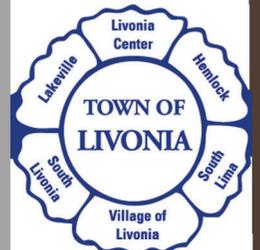

**Attend this free program, in person or
on Zoom, Thurs., March 12 @ 6:30 PM**
