

ANOTHER FREE PRESENTATION OF THE WATERSHED EDUCATION CENTER

AI and the Human Future.

Artificial intelligence is transforming society, business, education, and human work at an unprecedented pace. Mark Rider, at SUNY Geneseo's School of Business, will explore the rise of AI, the infrastructure powering it, its impact on society, and deeper questions emerging from the technology. Drawing on themes of creativity, judgment, ethics, and purpose, he will examine how humanity can thrive in the Age of Intelligence. To sign up to attend this live event, or to receive a YouTube link to see it later, scan the QR code below or go online to conesuslake.org.

**Attend this free in-person presentation
on Thursday, August 20th at 6:30 PM**
